DEEP DEBT OF GRATITUDE

Owed by the United States to the Land of Lafayette and We Should Show Moderation and Sympathy. Show Moderation and Sympathy. ment officially apply for these papers what She Did For the Struggling the documents would be produced with-Republic of America.

Ohleago, Sept. 18.—Robert J. Thompson, secretary of the Lafayette memorial commission, says he thinks the people of the United States are making a rash move to condemn the French nation for the Drayfus verdict. "The people of the United States owe a deep debt of gratitude to France," he said in an interview yesterday, "and we should show moderation and sympathy at this time instead of violence.

"The people of America must not forget that as a nation independent of European influence and dictation we owe all practically to France.

"The treatment of France by the United States has, under the circumstances which have existed, been, to say the least, most ungrateful and shameful. Do our people know that beside giving us Lafayette, France also gave us Rochambeau with thousands of the best trained soldiers in Europe? She gave us DeGrasse and Count D'Estaing, with fleets of splendid warships, and she expended, in her co-operation with General Washington in the war for inde-pendence, \$280,000,000. She loaned and gave us outright, as gifts of friendship, many millions of dollars, and she did these things at a moment when not to have done them would have meant the absence of the republic of the United States on the western continent, in my opinion, forever.

"It seems incredible, but history nevertheless records the fact," continned Secretary Thompson, "that but a few years after our establishment as an independent government through the aid of France, we negotiated a secret treaty or friendly alliance with Great Britain against France, resulting in this ontraged friend turning her guns on our infant merchant marine, producing a loss of some \$20,000,000, which France later agreed to pay if we would reimburse her for the expense she had gone to in establishing us as an independent nation. We quickly acknowledged the expenditure on the part of France of the \$280,000,000 in our behalf, played the poverty act and begged them to withdraw their bill. To this day-100 years after—the French spoliation claims are unpaid.

"The United States as a government and the people individually owe France more than can ever be paid. Therefore, moderation just now would be the part of friendship rather than a wild and useless attempt to interfere with her most sacred internal affairs.

"France, as a nation, should have our sympathy at this juncture instead of death had cocurred. our hatred. It is a country where the unexpected always happens, and we may hope for a satisfactory adjustment of the Dreyfus affair before the matter

WHY THEY ARE TRAITORS

W. B. Shattuc of Cincinnati Writes to Edward Atkinson.

Cincinnati, Sept. 13 .- In reply to another letter from Edward Atkinson of Boston, representative of the anti-imperialists, Congressman W. B. Shattuc of this city has written a lengthy communication giving his reasons for calling Mr. Atkinson and others "traitors, copperheads and cowards." Shattuc defines these terms, applies them again to the same parties and refuses to retract anything in his former correspondence. He denounces all whose sharpshooting is from the rear and closes thus:

"I care nothing about your theories of expansion or nonexpansion, imperialism or anti-imperialism. A man has a right to believe what he pleases. What I do object to and protested against is your seditious literature being sent to my home, because you advocated the discouragement of enlistments in the army and because you advised citizens to keep recruits from joining the service. You have done much in your lies to embarrass the government and you have villified the president. You have given aid and comfort to those in rebellion against the authority of the United States and have sent your vicious literature to Manila with the hope that it would be circulated among our soldiers, to the end that they might become dissatisfied and mutinous, and also with the hope that it might reach the rebels and encourage them.

"The war is the peoples' war. They inaugurated it, and they will stand by the administration which is endeavoring to carry out their will, that the rebellion be suppressed and order restored in the Philippine islands without regard to the bullets in front and the snapping copper-heads like you in the rear. Congress, and not the president, will in due time determine what kind of government should be established in the Philippines, but this question will never be definitely settled while our country is confronted by an armed force."

WINE OF CARD Woman's Crowning Virtue.

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chatta-nooga Medicine Co., and their letters will be promptly answered by women trained in the cure of

womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

Seven Hundred Chimney Workers on Strike In the Gas Belt.

WRECK ON B. AND O. S. W.

Two Tramps Supposed to Be Underneath the Wreckage - Mother and Three Children Killed at a Railroad Crossing - John F. McKee Dead at Indianapolis-Tables Turned.

Alexandria, Ind., Sept. 13.—The strike of lampchimney workers in the gas belt is assuming serious proportions. Yesterday 100 employes of the South Marion plant struck for higher wages, while more are expected to leave their work this evening. Both this strike and that at the Thomas Evans plant are thought to have been caused by the deputations of Elwood strikers, who have been making a tour of gas belt factories. In both cases the men have demanded 15 per cent increase of wages. There are now 700 chimney workers in the gas belt on a strike.

KILLED AT A CROSSING

Mother and Three Children Mangled by a Panhandle Train.

ogansport, Ind., Sept. 13.-A westand passenger train on the Panhandle yesterday struck a carriage at a crossing east of this city, containing Mrs. Harrison McVety, two daughters and a son. The daughters were aged 14 and 18 and the son 12 years. All four were instantly killed and their bodies horribly mangled. The locomotive struck the vehicle just as the horse cleared the is visiting at home. track. The animal escaped injured.

The trainmen assert that the whistle was sounded for the crossing, and that the brakes were applied for a slowdown. but owing to the deep cut the engineer did not see the carriage until almost upon it. Mrs. McVety appeared paralyzed with fear, and before she could make an attempt to urge her frightened horse the locomotive crashed into them. Mr. McVety is well nigh crazed over the horrible affair.

ICE CREAM FESTIVALS

Not Effective In Saving Souls According to This Preacher.

Logansport, Ind., Sept. 18.—Rev. Mr. McDonald, pastor of the Cumberland Presbyterian church, has excited comment by the announcement that hereafter the church will devote its entire energies to saving souls instead of devoting time to socials, festivals, etc. He believes that there is little good in such affairs, particularly as the members have to provide the refreshments and then purchase the wares.

At two or three places the tracks of the burglars showed that they were barefooted.

Jeffersonville, Ind., Sept. 13.-Judge ploy of Mrs. Charles Dabb. Marsh of the Clark circuit court has served notice that the Clarksville policy shop must close. He also gave notice that the names of men drawn for grand jury and petit service must not be made public. The reason of this, as alleged, returned home Monday. is to prevent the lottery people bringing any influence to bear on the jurors in advance of service.

MAKING A RASH MOVE

Robert J. Thompson of Lafay ette Memorial Commission Champions France.

DEEP DEBT OF GRATITUDE

Owed by the United States to the Land of Lafayette and We Should Show Moderation and Sympathy. What She Did Por the Struggling the documents would be produced with-Republic of America.

Ohicago, Sept. 18.—Robert J. Thompson, secretary of the Lafayette memorial commission, says he thinks the people of the United States are making a rash move to condemn the French nation for the Drayfus verdict. "The people of the United States owe a deep debt of gratitude to France," he said in an interview yesterday, "and we should show moderation and sympathy at this time instead of violence.

"The people of America must not forget that as a nation independent of European influence and dictation we owe all practically to France.

"The treatment of France by the United States has, under the circumstances which have existed, been, to say the least, most ungrateful and shameful. Do our people know that beside giving us Lafayette, France also gave us Rochambeau with thousands of the best trained soldiers in Europe? She gave us DeGrasse and Count D'Estaing, with fleets of splendid warships, and she expended, in her co-operation with General Washington in the war for independence, \$280,000,000. She loaned and gave us outright, as gifts of friendship, many millions of dollars, and she did these things at a moment when not to have done them would have meant the absence of the republic of the United States on the western continent, in my opinion, forever.

"It seems incredible, but history nevertheless records the fact," contin- His wife was at his bedside when he ned Secretary Thompson, "that but a few years after our establishment as an independent government through the aid of France, we negotiated a secret treaty or friendly alliance with Great Britain against France, resulting in this ontraged friend turning her guns on our infant merchant marine, producing a loss of some \$20,000,000, which France later agreed to pay if we would reimburse her for the expense she had gone to in establishing us as an independent nation. We quickly acknowledged the expenditure on the part of France of the \$280,000,000 in our behalf, played the poverty act and begged them to withdraw their bill. To this day-100 years after-the French spoliation claims are unpaid.

The United States as a government and the people individually owe France more than can ever be paid. Therefore, moderation just now would be the part of friendship rather than a wild and useless attempt to interfere with her most sacred internal affairs.

"France, as a nation, should have our sympathy at this juncture instead of death had occurred. our hatred. It is a country where the anexpected always happens, and we may hope for a satisfactory adjustment of the Dreyfus affair before the matter is closed."

At a conference between Commissioner General Peck and the various heads of departments in the Paris exposition commission, the directors all reported progress in their departments and great interest manifested by the exhibitors.

WHY THEY ARE TRAITORS

W. B. Shattuc of Cincinnati Write to Edward Atkinson. Cincinnati, Sept. 13.-In reply to an-

other letter from Edward Atkinson of regarding the Philippine situation, but Boston, representative of the anti-imperialists, Congressman W. B. Shattuc of this city has written a lengthy communication giving his reasons for calling Mr. Atkinson and others "traitors, copperheads and cowards." Shattuc defines these terms, applies them again to the same parties and refuses to retract anything in his former correspondence. He denounces all whose sharpshooting is from the rear and closes thus:

"I care nothing about your theories of expansion or nonexpansion, imperialism or anti-imperialism. A man has a right to believe what he pleases. What I do object to and protested against is your seditious literature being sent to my home, because you advocated the discouragement of enlistments in the army and because you advised citizens to keep recruits from joining the service. You have done much in your lies to embarrass the government and you have villified the president. You have given aid and comfort to those in rebellion against the authority of the United States and have sent your vicious literature to Manila with the hope that it would be circulated among our soldiers, to the end that they might become dissatisfied and mutinous, and also with the hope that it might reach the rebels and encourage them.

"The war is the peoples' war. They inaugurated it, and they will stand by the administration which is endeavor ing to carry out their will, that the rebellion be suppressed and order restored in the Philippine islands without regard to the bullets in front and the snapping copper-heads like you in the rear. Congress, and not the president, will in due time determine what kind of government should be established in the Philippines, but this question will never be definitely settled while our country is confronted by an armed force."

No Secret Treaty of Alliance With England.

Columbus, O., Sept. 18.-In a letter to Chairman Dick of the Republican state executive committee, Secretary of State Hay makes this emphatic statement regarding the alleged secret alliance between England and the United States: "There is no alliance with England, nor with any other power under heaven. except those known and published to the world, the treaties of ordinary international friendship for purposes of

business and commerce. "No treaty other than these exists: none has been suggested on either side; none is in contemplation. It has never entered into the mind of the president nor any member of the government to forsake, under any inducement, the wise precept and example of the fathers, which forbade entangling alliances with European powers."

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardul permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. Seven Hundred Chimney Workers on Strike In the Gas Belt.

WRECK ON B. AND O. S. W.

Two Tramps Supposed to Be Underneath the Wreckage - Mother and Three Children Killed at a Railroad Crossing - John F. McKee Dead at Indianapolis-Tables Turned.

Alexandria, Ind., Sept. 18.—The strike of lampchimney workers in the gas belt is assuming serious proportions. Yesterday 100 employes of the South Marion plant struck for higher wages, while more are expected to leave their work this evening. Both this strike and that at the Thomas Evans plant are thought to have been caused by the deputations of Elwood strikers, who have been making a tour of gas belt factories. In both cases the men have demanded 15 per cent increase of wages. There are now 700 chimney workers in the gas belt on a strike.

The daughters were aged 14 and 18 and the son 12 years. All four were instantly killed and their bodies horribly mangled. The locomotive struck the vehicle just as the horse cleared the

track. The animal escaped injured. The trainmen assert that the whistle was sounded for the crossing, and that the brakes were applied for a slowdown, anged special Sunday train schedule, giving but owing to the deep cut the engineer did not see the carriage until almost upon it. Mrs. McVety appeared paralyzed with fear, and before she could make an attempt to urge her frightened horse the locomotive crashed into them. Mr. McVety is well nigh crazed over the horrible affair.

Logansport, Ind., Sept. 18.—Rev. Mr. McDonald, pastor of the Cumberland Presbyterian church, has excited comment by the announcement that hereafter the church will devote its entire energies to saving souls instead of devoting time to socials, festivals, etc. He believes that there is little good in such affairs, particularly as the members have to provide the refreshments and then purchase the wares.

Miss Julia Schwab, 138 Ferry street, Lafayette, Ind., says: "I have been troubled with kidney backache for over a year; my back ached so severely at times that I could scarcely do anything but complain. I was nervous and sleepless, in fact I would often arise in the morning more tired than when I went to bed. The doctor said I had symptoms of kidney disorder but this statement gave me no relief. When I heard and read about Morrow's Kid-ne-oids I resolved to try them. I read carefully the directions and followed them; I was greatly surprised at the quick relief they gave me, after the second dose I was relieved of the pain in my back. Since then I have otherwise improved and today I am a happy girl." Morrow's Kid-ne-oids are not pills, but Yellow Tablets and sell at fifty cents a box at all drug stores and Al-
